

STEP LOCKERS - 300MM & 380MM WIDE

Product Description

The Statewide Step Locker is an Australian made product constructed using 100% recyclable Bluescope steel. The step lockers include 300mm and 380mm wide variants. They are particularly useful in environments where separating personal and work clothing is required. There is a comprehensive range of locks available including digital keypad, RFID/smart card, latchlocks and more. To cater for OH&S requirements, sloping tops can be fitted. We can also supply locker stands, stands & seats or bench seating if required.
