

DESCRIPTION

The Gemini-M 2700 mechanical combination lock is a small, easy to use dial lock. It is supplied in Silver as standard and is also available in Black or White. With a metal body for increased durability and a mechanical override key function, the Gemini-M will not let you down and will outlast cheaper, plastic body locks, especially in high use environments like schools or public areas. Perfect for small form factor lockers such as the Statewide Mini Phone Lockers, or 12 tier traditional lockers.

FEATURES

Digital Combination Lock with Manual Key Override

- Up to 10,000 combinations
- Tool-free user code changeable
- Metal Body
- Mechanical key override
- Colour: Silver
- Manufactured in the UK

OPTIONS

- Black or White are available, lead times apply
- Surface Mount if required
- Custom colours available
